3. FUNCTION SPACE EXTENSIONS IN BUILDING

4. DYNAMIC FACADE POSITIONS CORRIDOR AND FUNCTION SPACES ALTERNATING ON STREET SIDE

5. CENTRAL FACADE EMPHASISED BY THE TOWER TO COMPLIMENT THE SYMETRICAL BUILDUP

KEEPING THE OLD

EXISTING CREA BUILDING

THE CREA BUILDING AS A 19TH CENTURY HOSPITAL BUILDING GIVES A UNIQUE LOOK INTO HOSPITAL AND CITY HISTORY. BUT AS A PART OF THE DYNAMIC INNER CITY, THE MULTIPLE TRANSFORMATIONS IN FUNCTIONS FROM ORCHARD, TO CONVENT, TO HOSPITAL AND NOW AS A UNIVERSITY HAVE BECOME ITS STRENGTH. SHOWING FLEXIBILITY IN THE LOCATION AND BUILDINGS. AS THE CITY CHANGED AND WILL KEEP CHANGING, THE BUILDINGS ARE ADJUSTED TO FIT ONCE MORE.
